For more than three years I had been afflicted with inflamed eyes in an aggravated degree, and tried various Physicians, and several nostrinus, to no effect; I was induced by Dr. Baum to try the Arctic Liniment, and in two months was nearly well. My little daughter was afflicted in the same manner for the same time, and during a portion of the time was entirely blind in one eye. I applied your valuable Liniment, and her eyes are now perfectly sound. Thus have I, with one two-bit bottle, cured my daughter's eyes and my own, besides enring the Rheumatism in my back. I would not be without your valuable remed in my house.

This debate is most interesting.— This American born nobleman wa-induced to make his speech in consequence of Mr. Dallas' statement at the 4th of July dinner to the effect that the question "had been finally settled;" and that it had been said, in certain quarters, that Great Britain in this settlement had abandoned

The answer which I make to that is, that we have sur-rendered no right, no such right as that which is contended for laving ever existed. We have abandoned the assumption of a right, and in doing so we have, I think, acted justly, prudently, and wisely (Hear, hear.) Perhaps your lordships will allow me to make some observations upon the general questions, and to refer to some authorities on the subject. I would not have troubled you were it not that I think it of great importance that this question should be dis-tinctly and finally understood and settled. The first proposition which I state is this, that by no writer on international law has this right ever been asserted; and, in the next place, I say that there is no decision of any court of justice hav ing jurisdiction to decide such questions, in which

My lords, I think I have now es tablished the proposition with which I set outnamely, that there is not by the law of nations any right whatever to visit or search, and that whatever arrangements we may have made with the American government on the subject we have, at all events not renounced our right, masmuch as no right of that description ever existed."

Near the close of his remarks, Lord Lyndhurst made the following handsome allusion to Mr.

"Before sitting down, my lords, I must do jus tiee to the honorable gentleman who made the statement to which I have referred (Mr. Dallas) reading the concluding words of his speech which are in perfect accordance with the high character he has obtained both in this con and in the country which he represents-"While I think it should be accompanied also by the as surance that the termination of that for which we have struggled for nearly half a century has been brought about with a degree of sono able candor and fair dealing on the part of the British government deserving of every acknowledgment

In reply to Lord Lyn thurst, the Fir of Malmesbury thus elinehed this matter:

When we had to consider what reply we should make to the note addressed to us by Gen. They at once brankly confessed that there was no right of visit and search, and abandoned the claims which had been made to it.

If the opposition cavillers are not silenced by these speeches, nothing ever will silence them. Beyond a question the admirable course of President Buchanan's administration has settled forever the vexatious questions connected with the right of visit in a time of peace. The ground assumed by Lord Aberdeen, in 1841, has been entirely abandoned.

This man Branch, formerly a member of the New York Common Council, has been sent to the penitentiary for libels upon private character.— We rather think he has been harshly dealt with, for he is a weak-minded man whose vanity has been imposed upon by knaves and mischief makers till he is scarcely more than an idiot. We do not believe there is the least malice in his nature. It's seems to write as if he would be thought to possess a large share of spunk, but he hasn't a particle of it. Tweve or fifteen years ago he in troduced himself to us on board a boat coming who bade me welcome with a heartiness that made me for the moment forget that I was in the heart of a barbarian land. Divans were spread, a narghileh was brought, followed by coffee, and asked whether he wished one in the ladies' cabin. standing the full bearing of the question, and no doubt supposing that, on account of his distin the East. For three days, Branch continued to stalk proudly into and out of his state room, occupied exclusively by himself, but, at last, some of the more observing of the ladies began to ask, first themselves and then each other, what it all Peeping, or getting their landsands or brothers to peep for them, into his state-room in his temporary absence, they found that he had nothing of their gender there, and, although the fellow was really pretty good looking, the less ensceptible of them couldn't help eeling indignant that even a handsome rascal in beard and breeches should monopolize a whole room right in their midst while a score of ladies crowded out of the cabin altogether was sent for, and the case laid before him, and he, thinking probably of the female passengers he had lost for the want of room in the ladies' cabin, and the forcing of others off into the gentlemen's cabin, walked fiercely up to Branch and demanded an explanation. The innocent Branch tried hard to explain, but the fiery young clerk, though of searcely half his opponent's size, took him by the collar, spoke his opinion of him without any injunction of secrecy, gave hind a very rough shake or two, led him to the extreme end of the boat, and told him that he must either go a shore or sleep on the floor the rest of the way 5,185 Prizes ainounting to \$320,000

Thousands of Grocers and general Store-keepers now sell Teas in our Metallic Packages, and the number is constantly hereasing, notwithstanding the strong projudice that once existed against teas put up in this convenient form. This unexumples sneess is the legitimate result of a business uniformly done, for a long term of years upon just and fair principles, and especially with an eye to that wholesome one of "SMALL PROFITS AND QUECK RETURNS."

Teas being a perishable article, dealers are recommended to order small and frequent bills.

Those who still profer the old way, are furnished with teas in the original half-chests, at three cents per B. less than in Metallic Packages.

They have done my wife more good tinu I can tell you.
She had been sick and pining away for menths. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cared her, by expelling large quantities of worms (dead) from her lody. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. DR. J. C. Aven: I do not hesitate to say
the best romedy I have ever found for

Brother Ater: I will cheerfully certify your Peteral

less than one half the bottle made me completely well.

She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave hor much relief. She was steadily falling, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. Ayer's Cathartic Pills. THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs.

are shown that these Pills have virtues which enroses in excellence the ordinary medicines, and that they win nu-precedentedly upon the esteem of all men. They are safe. and pleasant to take, but powerful to cure. Their pener trating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood. and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggisk or discredered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do, they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled. the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Curse have been made which surpass bellef were they not substantiated by men of such exalted position and character as to forbid the enaptelen of nntrnth. Many eminent clergymen and physicians have tent their names to certify to the public the reliability of my remedies, white others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my

affileted, suffering fellow-men.
